

S7070

Digital Satellite Receiver

The Freeview approved DishTV S7070 digital satellite receiver provides crystal clear pictures, an easy to use remote control and full MHEG-5 Freeview EPG.

The S7070 provides component, A/V and RF outputs for use in either domestic or commercial installations and easy tuning via full blind scan channel search, including auto LNB search. With MHEG-5 channel updates, new channels are added automatically.

What does the Freeview approved DishTV S7070 Digital Satellite Receiver offer you?

- ~ LED front channel display
- ~ MHEG-5 Freeview EPG to give you an on-screen TV guide any time of the day with full program details
- ~ Full auto tune, including auto LNB search. No tuning necessary and no changing settings in the menu
- ~ Both Component Video and Optical Digital Audio output for your home theatre system
